1948-49 Rose PRICE LIST

Tree Roses - Bush Roses - Patented Roses - Climbers

PATENTED BUSH ROSES

Many of the finer, new roses are patented. The price on such varieties is standard all over America. We grow part of our patents under license from the patentees. The others are grown for us by Oregon growers, so that we offer acclimated bushes. These are available in December.

QUANTITY PRICES ON PATENTED VARIETIES

\$1.50 Varieties.....3 for \$3.75
10 for \$12.50
\$2.00 Varieties.....3 for \$5.10
10 for \$17.00
\$2.50 Varieties.....3 for \$6.30
10 for \$21.00
Pinkie and China Doll sell 25 for \$28.75

BOUTONNAIRE — A small double salmon-pink with boutonniere type buds. Bushy and compact grower. \$1.50.

CHARLOTTE ARMSTRONG — The first "all-American" selection and still one of the three or four top varieties. Long pointed blood-red buds. Large, double, fragrant, spectrum-red to cerise blooms. \$1.50.

CRIMSON GLORY — Long, pointed bud. Large semi-double, fragrant, deep velvety crimson blooms. \$1.50.

CHINA DOLL—This polyantha produces one to two-inch pink baby roses in unbelievable quantities, often having 200 blooms at one time. The 18-inch plants produce continually. \$1.50.

DIAMOND JUBILEE—All-American selection, 1948. Big, ovoid buds of buff, yellow and pale orange. Heavy producer. \$2.00.

DEBONAIR—A profusion of mimosa yellow buds that open to high-centered clear primrose-yellow flowers. Old fashioned rose fragrance. \$1.50.

ECLIPSE—Long pointed buds of yellow. \$1.35.

FRED EDMUNDS — All American 1944. Buds burnt-orange, blooms orange-apricot. \$1.50.

FLORADORA — All American 1945. A floribundi with immense production of cinnabar-red clusters of flowers. \$1.25.

MIRANDY—All American 1945. Very double, large blooms of garnet-red. \$1.50

MME. HENRI GUILLOT — Cerise pink. Long pointed buds. \$1.50.

MISS CLIPPER — Fragrant, long, slender buds. Salmon-pink shaded orange and yellow. A superb variety for Oregon conditions. \$1.50.

NOCTURNE—All American for 1948. Bright cardinal red with dark shadings of crimson. Long buds on long stems. Fairly fragrant. \$2.00.

PINKIE—All American 1948. Dainty, fragrant baby rose with long buds and opening into 2-inch flowers in tremendous profusion. The two-foot plants bloom from spring till frost. Fine for corsage use. \$1.50.

PEACE—All American for 1946 and considered by many to be the finest rose in existence. Immense blooms of soft yellow edged with pink. \$2.00.

PINNOCHIO—Salmon, flushed gold. A heavy blooming polyantha. \$1.25.

RUBIAYAT—All American for 1947. Rose-red to crimson with reverse of petals lighter. \$1.50.

ROSE ELFE—A double, high centered polyantha of pink. \$1.00.

SIERRA GLOW — Buds light pink. Flowers large, double, salmon-orange heart with silver pink on outer half of petals. Reverse deep rose. Fragrant. \$1.50.

SHOW GIRL — Perfect, long deep pink buds. Fragrant. One of best cutting roses grown. Long stems and lasting blooms. \$1.50.

SWEET SIXTEEN—Dainty pink with tints of rose and gold. Long tight buds. Sweetly fragrant. Does very well in the Northwest. \$1.50.

SAN FERNANDO—All American for 1948. Fragrant blooms of glowing currant red. \$2.00.

SIGNORA—Orange, apricot and gold blend. \$1.35.

TAFFETA—All American 1948. A heavy producer of long-stemmed fragrant buds in rich pink and salmon. The open flower is begonia red with some yellow on the reverse. \$2.00.

ALL-AMERICAN SELECTIONS FOR 1948-1949 SEASON

FORTY-NINER and **TALLYHO** were selected by rose judges who rated the new offerings for the past year, as being the two best new roses to be introduced this year. They were both produced by Pacific Coast breeders.

FORTY-NINER is described as the most brilliantly colored bi-colored rose ever produced. Colors are long lasting. The outside of the petals is rich chrome-yellow, sometimes overlaid with pink, changing to straw yellow in the open bloom. The inside of the petals is a brilliant Oriental red. Buds are long pointed and open to flowers with 25 to 40 petals. Long stems, fairly free from thorns. \$2.50 each.

TALLYHO—A new color in roses. The color on the inside of the petals is a delightful shade of pink and the outside of petals varies from crimson to cardinal red. Although a bi-color, the contrast is not great. Ovoid buds. Spicy fragrance. Long stemmed, lasting flowers. Robust grower. \$2.50.

FLORIBUNDA ROSES

The Floribundas are really hybrid polyanthas. They are usually crosses between polyanthas and hybrid tea varieties. They are larger flowered than the polyanthas but flower in clusters and have the same quality of almost continuous production of flowers. They can't be beaten for producing great masses of continuous color in the garden. For best effects, plant them in groups or rows, a number of a single variety together.

Priced the same as other bush roses.

BOUQUET—Double, cerise red. Long lasting flowers.

CINNIBAR—Semi-double, vermilion to scarlet red. Similar to Floradora but with a better variety.

EUTIN—Double, glowing scarlet-red.

GRUSS an AACHEN—White with orange-salmon cast fading to white. Double.

IMPROVED LAFAYETTE — Semi-double deep glowing red. Heavy producer.

KAREN POULSEN—Single, brilliant scarlet.

KORALLE—Light red.

LITTLE MISS MUFFETT — Cerise buds followed by rose-pink flowers.

RED RIPPLES—Semi-double, red to carmine. None better.

SALMON SPRAY—Fragrant, semi-double, light salmon-pink.

POLYANTHA ROSES

Priced the same as other bush roses.

Polyanthas are small flowered cluster roses. They are the most prolific bloomers and show color almost continuously from spring until frost. They should be used where continuous color is wanted, along drives, in front of other shrubs and as low hedges.

BELVEDERE—Large, double, velvety, dark red. Dwarf bush. Heavy bloomer.

CAMEO—Small, semi-double, salmon pink. Profuse bloomer.

CHARMAINE—Double, fragrant, pink tinged salmon, spray on long stem.

CHATILLION ROSE — Semi-double, fragrant, bright pink.

EDITH CAVELL—Scarlet crimson.

GARTENDIREKTOR OTTO LINNE Double, dark carmine-pink. Vigorous grower, taller than most polyanthas. Profuse.

GLORIA MUNDI — Double, orange-scarlet clusters.

KATHERINA ZEIMET—Small, double, fragrant pure white. Dwarf and bushy.

MRS. R. M. FITCH — Double rosy pink.

ORANGE TRIUMPH—Semi double clusters of salmon-red with slight orange shadings. A dandy.

TRIOMPHE ORLEANAIS — Semi-double cherry red.

BUSH ROSES

These are Salem-grown, acclimated rose bushes. We grow most of them in our own nursery. After digging, our bushes are stored outdoors, in moist air. We do not wax our bushes as this unnatural practice is only resorted to to give partial protection against drying out when the bushes must be kept in a dry store. The following list contains most of the better non-patented varieties that have proven adapted to Oregon conditions.

90c each
\$10.00 per dozen

AMI QUINARD—A very dark red.

AUTUMN—Burnt orange.

AUSTRIAN COPPER—A shrub rose with single flowers with copper red petals with reverse petals golden yellow.

BETTY UPRICHARD—Copper-pink.

BOUDOIR — Tyrian-rose with white reverse.

CECILE BRUNNER—Tiny buds of pink.

CUBA—Orange-scarlet.

CHRISTOPHER STONE — Blazing crimson. One of best.

CONDESA DE SASTAGO — Yellow and raspberry red bicolor.

CALADONIA—White.

DOROTHY JAMES — Two toned chamois pink.

DAME EDITH HELEN—Shell pink.

ETOILE DE HOLLANDE—Dark velvety red.

FRAU KARL DRUSKI—White.

GIRONA—Red and yellow blend.

GOLDEN DAWN—Sunflower yellow.

HINRICH GAEDE—Copper-orange.

HEINRICH WENDLAND — Nasturtium red with gold.

IMPERIAL POTENTATE — Double, fragrant dark rose-pink.

JOANNA HILL—Creamy-yellow.

KATHLEEN PECHTOLD — Gold, orange, copper bicolor.

LADY HILLINGDON—Apricot.

LOS ANGELES—Flame pink.

LULU—Slender buds of coral-apricot.

LIZZY HORSTMAN—Scarlet.

MRS. E. P. THOM—A fine yellow.

MRS. SAM MCGREEDY—Yellow.

MRS. P. S. DUPONT—Slender yellow buds.

MME. EDU HERRIOTT—Coral pink.

MME. CAROLINE TESTOUT—Pink.

MME. JULES BOUCHE—White.

MAYOR BAKER—Orange scarlet.

MARGARET MCGREEDY — Large orange-scarlet.

MR. GREEDY'S YELLOW—One of best yellows.

MCGREEDY'S IVORY—A fine white.

NIGHT—Very dark red.

NIGGER BOY—Long, pointed buds. Fragrant, very dark, velvety blackish maroon. Has heavy flowering habit of the floribundas.

PICTURE—Beautiful pink buds.

POINSETTA—Poinsetta red.

PRES. HOOVER—Orange-scarlet and pink.

RAPTURE—Flesh pink.

RED HOOVER—A beautiful cherry red.

SNOWBIRD—Fragrant, white well formed flowers.

SOUTHPORT—Red.

TALISMAN—Mixture of red, orange and copper.

THE DOCTOR—One of best pinks.

HALF STANDARD TREE ROSES

These are shorter tree roses budded about 28 inches above the ground. These little trees are useful where a full height rose tree is too tall. We have chosen varieties of the polyantha and floribunda types so as to make trees that will be as nearly continuously in bloom as is possible with roses. From June until fall frosts these little trees will be in bloom most of the time. The following varieties are available but not in great numbers.

BABY LILLIAN—This is a hybrid chinensis minima. Small flowers and small leaves. Begonia rose in color.

LULU—Salmon pink. Long pointed buds. Ideal boutonniere rose.

NIGGER BOY—Almost continuously blooming, brilliant crimson flowers. Double, fragrant flowers.

ORANGE TRIUMPH—Small flowered polyantha that is not orange in our climate as the name suggests but a salmon-red with perhaps a tinge of orange. One of the finest polyanthas grown in Oregon.

Price of Half-Standard Tree Roses—\$2.50 each.

TREE ROSES

A tree rose is a bush rose that is budded about 42 inches high on cane of another species of rose. We bud our tree roses on a thornless stock that does not send up root suckers. The ordinary wild rose, that is too often used for a tree rose stock, is prone to fill the surrounding ground with suckers that must be continually cut down. Our stock does not do this and seems to be much longer-lived than the common wild stock.

These color ful plants should be more used in landscape work. They produce large amounts of color through a very long season. Where one wants a supply of fine, exhibition type rose buds for cut flowers, the hybrid-tea varieties are most satisfactory. If a great mass of color is wanted through many months, give attention to floribundas and polyanthas as tree roses. Climbers, of varieties that produce weak canes, make beautiful weepers. Price tree roses, \$3.00 ea.

Hybrid-Tea Varieties as Tree Roses

AUTUMN—Burnt orange, streaked red.

AMI QUINARD—Very dark, coppery scarlet. Fragrant.

BETTY UPRICHARD — Fragrant, salmon-pink.

CHRIS STONE—Long pointed bud. scarlet overlaid with crimson. Fragrant. One of the best reds.

CONDESA DE SASTAGO—Oriental red and yellow, distinctly two-color.

DAINTY BESS — Single, rose-pink with dark stamens. One of best singles.

DOROTHY JAMES—Peach-pink with reverse deep rose.

ETIOLE DE HOLLANDE—Bright red with rich fragrance. One of the best.

GOLDEN DAWN—Fragrant sun flower yellow. Well formed.

HINRICH GAEDE — Pointed bud. Large orange-yellow with nastartium yellow glow. An unusual color.

INNOCENCE — Ten petaled flower, white with golden stamens.

KATHERINE PECHTOLD—Coppery-orange flushed rose and gold.

LULU—Long buds orange red. Flowers single, salmon-pink.

McGREDY'S YELLOW—Long pointed bud. Bright buttercup yellow.

McGREDY'S IVORY—Large, double, fragrant creamy white.

MRS. E. P. THOM—Long bud. Well shaped, fragrant, deep canary yellow.

MRS. P. S. DUPONT—Long pointed buds. Fragrant yellow flower.

NIGGER BOY—Very double, very dark velvety blackish maroon.

NIGHT—Fragrant, deepest blackish crimson.

PICTURE—Fine velvety clear rose-pink.

POINSETTA—Large, double, unfading scarlet.

PEDRABLES—Creamy white.

PRES. HOOVER—Large double flower with various pink to orange shades.

SOUTHPORT—Long pointed buds. Fragrant, unfading scarlet.

TALISMAN—Fragrant. Golden yellow and copper.

THE DOCTOR—Very large, fragrant, satiny pink. At its best in the fall. One of the best pink tree roses.

Price Non-patented Tree Roses, No. 1 grade, \$3.00 each. 10 or more at 25c per tree reduction.

We have some lighter grades at \$2.00 and \$2.50.

Tree roses ready about December first. Tree roses are bulky things to crate for shipment. If order is to be shipped, add crating charge of \$1.00 for first bush and 25c each for additional bushes in each shipment. Too large for parcel post. We prefer to have customer call at salesyard for tree roses. Our tree roses are headed at approximately 42 inches in height.

SINGLE ROSES

Prices same as other bush roses.

The singles have from five to ten petals.

COLETTE CLEMENT Single and semi-double reddish nasturtium-orange.

DAINTY BESS—Single soft rose-pink.

DAINTY MAID—Similar to Dainty Bess but a little more color.

INNOCENCE—White with golden stamens.

IRISH ELEGANCE—Bronzy orange-scarlet.

ISOBEL—Large single, light rose pink with apricot shading.

VESUVIUS—Large single, fragrant, dark velvety crimson.

ORDER EARLY to insure full selection. Orders will be filled in order of receipt. A twenty percent deposit will hold your order. Send balance before date of shipment. No C. O. D. please.

A FINE NEW CLIMBER HIGH NOON — All-American selection for 1948.

The first climbing rose ever to be awarded AARS honors.

An intense shade of clear, shining yellow in medium sized, well-shaped buds. Buds on long, almost thornless stems make them ideal for cut flowers. Blooms through the whole growing season. Not rampant growing, but makes a fine 8 foot pillar that can be trained on post, trellis, arbor or wall. Price \$2.50 each.

Climbing Roses

\$1.00 each. Strong two year bushes (patented varieties excepted) We take great pride in offering such an extensive list of fine climbing rose varieties. We believe that our list is the largest offered in the Northwest.

AMERICAN PILLAR—Vigorous climber. Single, carmine-pink with white eye and yellow stamens.

BLOOMFIELD COURAGE — Small, single, dark red with white center.

CL. CECILE BRUNNER — Tiny pink flowers. Repeat bloomer.

CL. YELLOW CECILE BRUNNER—Tiny yellow buds.

CL. ETIOLE de HOLLANDE—Bright red.

CL. LADY HILLINGDON — Apricot yellow.

CL. HOOSIER BEAUTY — Fragrant, glowing crimson.

CL. MME. BUTTERFLY—Light pink.

CL. MRS. E. P. THOM—Long bud. Canary yellow.

CL. MRS. P. S. DUPONT — Pointed bud. Deep yellow.

CL. PRES. HOOVER — Vigorous orange-scarlet.

CL. TALISMAN—Golden yellow and copper.

CITY OF YORK—Vigorous, creamy-white.

COUNTESS OF STRADBROOKE — Large, double, fragrant, well-formed, dark glowing crimson. Repeat bloomer.

DR. VAN FLEET — Double, shell-pink.

DR. HUEY — Semi-double crimson-maroon.

EVA—Large, semi-double, fragrant, carmine-red with white center.

EXCELSA—Clusters of small double light crimson. (Red Dorothy Perkins)

F. FERRER—Large, single, dark velvety red. Repeat bloomer.

GUINEE—Large, double blackish scarlet.

HARMONY—Large, semi-double, high centered, fragrant, apricot-pink.

KATHLEEN—Single, below medium size flowers. Blush pink clusters on long stems. Recurrent bloomer.

KITTY KININMONTH—Deep glowing pink.

MERCEDES GALLART—Large, double, fragrant, deep pink with reverse vinous pink. Long strong stem. Recurrent blooms best in fall.

MINNEHAHA—Small, double, pink cluster roses.

PROSPERITY—White, large clusters on strong stem. Flower not large but blooms continually.

MME. GREGOIRE STAECHLIN — Vigorous grower. Bud long pointed. Flower large, fragrant, delicate pink, stained crimson outside.

PAUL'S LEMON PILLAR — Large, full double, fragrant pale sulfur yellow flower fading to white. Long strong stems.

PAUL'S SCARLET CLIMBER—Semi-double, vivid scarlet in large clusters. A tremendous producer of flowers.

RED STAECHLIN — Double, red flowers.

REVEIL DIJONNIAS — Semi-double flowers. Cerise with golden yellow centre, outside lemon streaker carmine, in clusters. An unusual beauty.

SOU. CLAUDIUS DENOYEL—Large, double, rich crimson-red, fragrant. Long stem. Repeat bloomer.

SUNDAY BEST—Long pointed bud. Single, brilliant red with white center. Clusters. Long bloom season.

THELMA—Rich flowers of coral pink. Clusters. Vigorous. Profuse bloomers.

WHEN READY. Our rose bushes are ready for delivery about December first. We allow the bushes to properly ripen before digging.

PATENTED VARIETIES OF TREE ROSES

Price \$4.50 each—10 for \$40.00

BOUTONNIERE — A small salmon-pink flower valuable as a boutonniere.

CHARLOTTE ARMSTRONG — The first rose ever to be awarded "All American" honors and one of the finest roses in existence. Long stream-lined buds of rich carmine, opening into long stemmed mildly fragrant flowers of rich cerise.

CHINA DOLL—A pink baby rose that blooms continuously all summer, often having 200 flowers at one time. For continuous color don't miss this one.

MIRANDY — 1945 "All-American." Very fragrant. Large, dark red.

SHOW GIRL — Long, pointed deep phlox-pink buds make this one of the finest cutting pinks grown.

SIERRA GLOW — Salmon - orange heart with silver pink outer part of petals. Reverse deep rose. Its bushy, spreading type of growth make it ideal for a tree rose.

FLORIBUNDI AND POLYANTHA VARIETIES AS TREE ROSES

We believe that the most important use of tree roses is to provide garden display, rather than for the production of cut flowers. If large masses of color through a long season is desired, we believe that the varieties listed in this section are most satisfactory. Polyanthas and floribundas are the best producers of flowers in the rose world. They are nearly continually in bloom from spring till fall, producing flowers in great clusters. The same varieties may be had either as bush roses or as tree roses.

BOUQUET—Cerise-red. Very satisfactory, long lasting cut flowers.

CINNIBAR—Vermilion to scarlet red. Similar to Floradora but we prefer it. Tremendous bloomer.

DAGMAR SPATH — White, flushed pink, fading to white.

CHATILLION ROSE — Semi - double pink.

IMPROVED LAFAYETTE—A large flowered floribundi of deep glowing red. Recurrent bloomer.

KAREN POULSEN — Continuous bloomer. Showy, single, brilliant scarlet.

KORALLE—A light red polyantha that blooms well.

ORANGE TRIUMPH — Salmon-red with orange shading. One of our favorites.

RED VELVET — Semi-double, vivid crimson.

SALMON SPRAY—Semi-double, cupped, fragrant, light salmon-pink. Profuse bloomer.

YVONNE RABIER — Double, pure white, clustered. Good bloomer.

CLIMBING HINRICH GAEDE — (Plant pat. No. 244) Brilliant orange vermillion flowers. A heavy display of breath-taking color in spring followed by intermittent blooms through summer.

An unusual color in roses. \$1.50 each.

CL. PICTURE—(Plant pat. No. 524) Will produce hundreds of beautiful, long-stemmed, perfectly formed clear rose-pink buds every season. Fragrant. \$1.50 each.

CL. TEXAS CENTENNIAL — (Pat. 565) The long, brick-red buds with their huge rosy open flowers are even larger, more lovely and borne on longer stems than on the bush form of this fine variety. A big, vigorous grower blooming profusely, produces loads of long stemmed buds for cutting. \$1.50 each.

CAPT. THOMAS—(Pat. 393) This fine climber produces myriads of single, creamy yellow flowers almost continually from spring to fall. Glossy, practically mildew-proof foliage. \$1.50 each.

SHIPPING Costs. The listed prices are salesyard prices where we have no packing and shipping costs. On any rose order (TREE ROSES EXCEPTED) add 25c for orders of \$2.50 or under and we will ship parcel post prepaid to any Oregon or Washington address. Shipments going out of these two states will be shipped express collect.

SALESYARD is located at 375 South Liberty street in downtown Salem, just 3 blocks south of State street. All sales are made and orders filled at the town salesyard, NONE AT THE NURSERY. As rapidly as the stock is dug it is hauled to town.
